*Java Full Stack Developer | Immediate Joiner Ready to Make an Impact"*

## EDUCATION

### **ANNA UNIVERSITY - SVCET**

#### **MECHANICAL ENGINEERING**

Aug 2016 to Apr 2021

Thiruvallur, TN

### **DON BOSCO MATRICULATION**

#### **HIGHER SECONDARY SCHOOL**

GRADE 12

Apr 2015 to Apr 2016

## SKILLS

Java

SQL

React JS

Java Script

HTML CSS

## ROLES AND

## RESPONSIBILITIES

A SQL expert excels in crafting complex queries, optimizing database performance, and proficiently managing relational databases.

Basic skilled in creating simple console applications using Java.

Knowledge of JavaScript, CSS, HTML, and front-end languages.

Knowledge of React.JS tools including Router, Redux, and State

Able to adjust with teams and responsible for other layers of the product infrastructure.

Up-to-date knowledge of Web design practices and next-generation digital trends.

Good time-management skills and able to work on tight deadlines.

## SUMMARY

I completed my Java full stack development training and am an automobile expert with over 2.5 years of hands-on experience. I am now steering towards a career shift as a software developer. Proficient in translating mechanical insights into coding solutions, I bring a unique perspective to front-end development with React JS and backend development using Java and SQL. Eager to apply my analytical skills and problem-solving mindset in the dynamic world of coding, I am ready to accelerate my journey from engines to algorithms. Let's drive innovation together.

## EXPERIENCE

### **ANNA ENTERPRISES | JUNIOR ENGINEER**

May 2023 – Oct 2023 | Chennai, TN

I Involves supporting senior engineers, participating in project planning, and assisting with technical tasks. Responsibilities may include conducting experiments, analyzing data, and contributing to the development of engineering solutions. Strong teamwork and communication skills are essential for collaboration within the engineering team.

### **ZF | ENGINEER TRAINEE**

May 2021 – May 2023 | Chennai, TN

A Quality InCharge leads a team of quality control professionals, ensuring they are well-trained and motivated to meet quality objectives. This role involves guiding the team, resolving issues, and fostering collaboration within the department. The Quality InCharge is tasked with maintaining and enhancing product or service quality by developing standards, enforcing quality controls, and spearheading continuous improvement efforts, all while effectively communicating and collaborating across various departments.

### **DELPHI TVS | ENGINEER INTERN**

Feb 2020 – Mar 2020 | Thiruvallur, TN

## PROJECTS

### **E-COMMERCE WEBSITE - FRONTEND**

"I developed 'Foodie,' an E-Commerce website showcasing a diverse range of food products. Utilizing HTML, CSS, and JavaScript, I designed an intuitive user interface, integrated a responsive navigation system, and implemented features like product search and a dynamic shopping cart, delivering a seamless and engaging online shopping experience."

#### **Frontend-Project**

### **JAVA - BACKEND**

Skilled in Java having actively contributed to demonstrating strong coding practices and an ability to manage complex code bases. Adept at problem-solving, debugging, and implementing efficient solutions.

#### **Backend-Project**

## CERTIFICATIONS

2024 Java Full-Stack, Besant Technologies AnnaNagar

2023 Demo Master Class, Accio Job

2021 Revit MEP, Unique MEP academy

2013 Abacus, Abacus Academy (DBMHSS)
